

C44 Diffuse Urban Pollution monitoring and remediation

Theme(s): B: Improve people's understanding of rivers, catchments, weather extremes and climate change. Increase community participation in monitoring change and taking action to improve and protect water environments.

Goal(s): B5: Carry out research and monitoring, and collect and make available relevant data.

Water quality and invertebrate sampling with general physical assessment of urban rivers including the Don, Team and Ouseburn.

Project Status: Current

Deliverer(s): Durham Wildlife Trust

Water Framework Directive link: Fish, invertebrate and phosphate failures on the Ouseburn; invertebrate failures on the River Don; invertebrates, ammonia and phosphate failures on the River Team
