

C50 Bird population data

Theme(s): B: Improve people's understanding of rivers, catchments, weather extremes and climate change. Increase community participation in monitoring change and taking action to improve and protect water environments.

Goal(s): B5: Carry out research and monitoring, and collect and make available relevant data.

Collection and collation of data on breeding seasons and winter visiting birds, including a range of species-specific historical data. Production of annual report 'Birds in Northumbria' and an atlas of breeding and wintering sites.

Project Status: Current

Deliverer(s): Northumberland & Tyneside Bird Club, British Trust for Ornithology

Biodiversity Action Plan / species link: Protected birds
